ABC LIRE AUTOUR DU MONDE

CMR is once again launching *Abc lire autour du monde* with the aim of giving parents and their children a taste for reading and writing.

The program includes a series of dynamic and creative workshops, as well as the distribution of reading bags between families.

Among other things, the project seeks to raise awareness among parents about the importance of encouraging reading among children from an early age, as well as to promote the use of the mother tongue.

The program, coordinated by Aïcha Boutaleb, is funded by the Ministry of Family Affairs.

LEARNING AND GROWING TOGETHER AS A FAMILY

CMR in action

94 children of our family centre and their parents had fun during our Christmas celebration...

... on December 19. Thanks to the donors for the wonderful gifts!

CMR preschool educators participated in a series of workshops entitled "Tell me a Story: ...

...Developing oral expression skills", led by comedian Dayane Ntibarikuré.
